

## Freeport Electric Announces A New NYSERDA Initiative

# NEW YORK'S GREAT APPLIANCE SWAP OUT

NYApplianceSwapOut.com

**THIS INITIATIVE HAS  
BEEN DISCONTINUED**

In February 2010, New York State added its capital plan in New York's Great Appliance Swap-Out, a program designed to provide a boost to New York's economy while providing an incentive for consumers to reduce their energy costs. Part of the program consists of a rebate on the purchase of new appliances (refrigerator, dishwasher, clothes washer) and a recycling incentive for old appliances. The program, funded through the American Recovery and Reinvestment Act (ARRA), will also provide added incentives for consumers who recycle their old appliances to help reduce the impact on landfills.

Under New York State's plan, consumers can receive rebates for purchasing eligible appliances individually or as part of a bundle of appliances. On top of that, the ENERGY STAR® label is a good thing, helping high efficiency appliances earn a larger rebate. For the bundle option, consumers may receive a larger rebate by purchasing three eligible appliances that meet the ENERGY STAR® label. The maximum rebate for a three-appliance bundle is \$775 (\$825 with documented recycling).

Customers purchasing appliances would qualify for a rebate of \$75 (\$105 with documented recycling) for a refrigerator, \$75 (\$105 with documented recycling) for a clothes washer, \$75 (\$105 with documented recycling) for a freezer. Rebates are available for dishwashers when they are purchased as part of a three-appliance bundlepackage (refrigerator, dishwasher, clothes washer), which may qualify for a \$500 rebate (\$555 with documented recycling).
